

EV Olives Classic Range

EV Olives is an Australian-owned boutique producer of ultra-premium cold-pressed extra-virgin olive oils, kalamata table olives and related gourmet products. EV Olives is located in the alpine valleys of North-East Victoria, where the clean environment and Mediterranean climate ensures the premium quality of their products.

EV Olives produces two extra virgin olive oils. The Ultra Premium Robust is a full-flavoured early-harvest oil with herbaceous notes and a peppery finish. The Ultra Premium Fruity is well-balanced mid-season oil with delightful tropical hints with avocado and pine nuts. These oils are processed chemical-free.

EV Olives Kalamata table olives are marinated in natural brine and red wine vinegar in the traditional Greek style. They come in natural brine, and in lemon and cracked pepper and garlic and chilli varieties. These olives are un-pitted, ensuring the fullest possible flavour and a firm texture. Made with all-natural ingredients, they are free of food acid and colouring.

EV Olives Gourmet Range

EV Olives produce a range of gourmet products using all-natural ingredients and traditional recipes.

EV Olives Agrumato oils come in lemon and lime. To make Agrumato, citrus fruit is added directly to the olives as they are being crushed. The direct blending of extra virgin olive oil and fresh citrus oil produces intense and lively flavours superior to infused oils and stable enough to hold up even under cooking.

EV Olives Tapanade is made to the traditional Spanish recipe with anchovies and capers. The EV Vinaigrette is in the classic French style, combining white wine vinegar with extra virgin olive oil and GM-free Milawa Mustard, and comes in an elegant, reusable bottle.

EV Olives Bread Dipping Oil with garlic and oregano, served with some crusty bread, is the perfect starter for a meal or as a tasty snack. EV Olives Stir Fry oil with chilli and coriander is perfect for adding Asian flavours to your cooking.
